Payment methods of examination

The **examinations carried out within the population-based screening programs** are free of charge and do not require medical request.

The **examinations not included in screening programs** are subject to payment, if they are carried out with presentation of medical request.

At the unit where the services are carried out, the user can pay the ticket (if required) by bank card (ATM), alternatively you can pay by bank transfer or postal bulletin. By regional provisions, the payment of the ticket must be completed before the service being carried out.

Self-employed professional activity

The services of outpatient activity are also ensured by self-employed professionals in which the user needs to pay the full fees for the service (medical request is not required).

Information and bookings for this activity can be requested at booking service “CUP Libera Professione” at number 848 800 048 from the fixed network or 199 197 977 by mobile phone.

Results collection methods

The tests that need to be collected at the Units of the Institute can be issued to:

- the directly concerned or, in the case of minors, to the person exercising the parental authority;
- a person with a written consent (delegation) released by holder of the result or by those entitled to, exhibiting their own identification document and the one of the delegator.

Those test results that are not included in the screening programs, if not collected within 30 days from scheduled for delivery will lose the benefit of the ticket and have to pay the entire service (Law no. 412/1991, art. 4, paragraph 18).

Request of health documentation

The health documents related to services carried out at the Units of ISPO, must be collected at the unit where the service was carried out by completing the relevant form and payment of the quota provided according to the documentation required.
